REPORT OF SUPERINTENDENT OF SCHOOLS

School Board and Citizens of the Dorchester School District:

Ladies and Gentlemen:

I hereby submit my seventh annual report as Superintendent of Schools. The statistical report for the year 1935-1936 follows this report.

There are at present 15 scholars attending the Cheever School. This is a very good number for a rural school. The number of Dorchester children placed in Canaan and Lyme schools varies from time to time, but the situation is carefully handled by the Board. The Board is keeping within the average cost of transportation, so that the expense of these Camp children is practically carried by the state and the burden on the district is negligible. It is anticipated that in a short time this problem will take care of itself for economic reasons as lumber operations decline.

During the summer a splendid hardwood floor was laid at Cheever and the school room was papered. The work is checked carefully both daily and long range as measured by standard achievement and intelligence tests. Parents can assist materially in the building up of the general knowledge of children if they would encourage them to listen to the news commentators over the radio. It is surprising how well informed even rather small children may be who follow daily the events of the nation and world.

Respectfully submitted,

ALLAN M. McCURDY,

Superintendent of Schools.
